

PHP/MELODY

Ruby Theme

Theme Setup

Installing your new PHP Melody Theme

Thank you for choosing this PHP Melody theme for your video website.
Updating your site's look is as easy as 1-2-3.

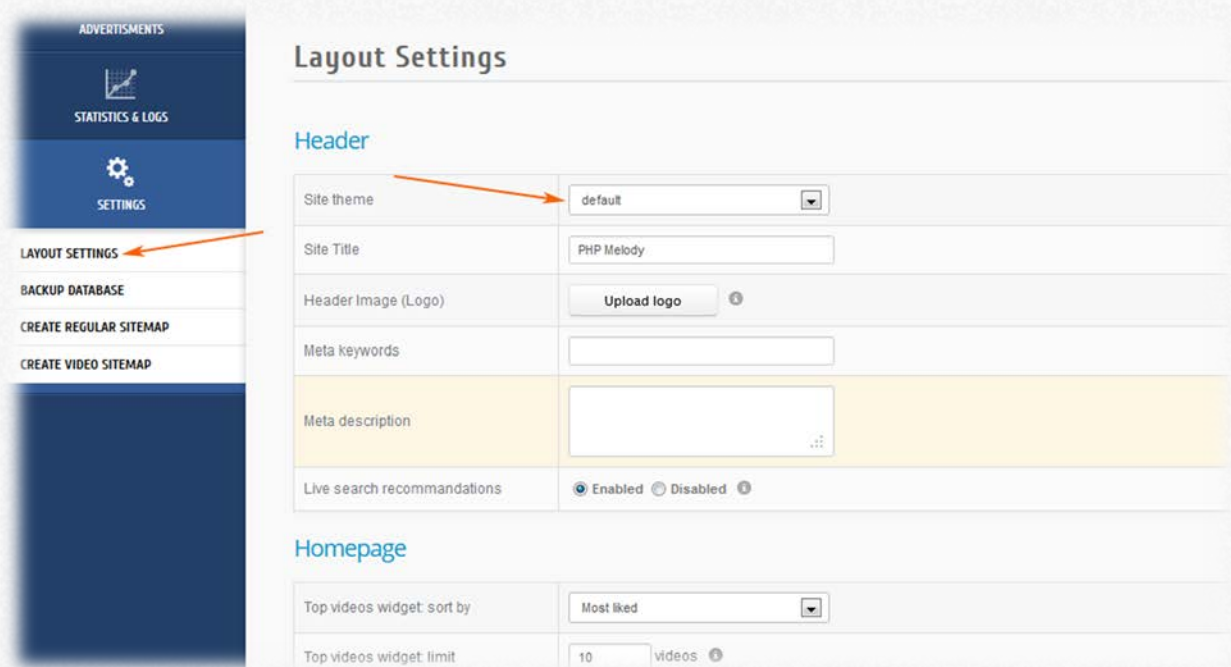

1 Upload

This theme resides in the `/Ruby` folder. Upload the `/Ruby` folder into your PHP Melody `/templates` folder.

The files should be uploaded in Binary mode.

2 Activate

Log into your Admin Area and browse to the “Settings” page. Under General Settings, the new theme should appear alongside the “default” one.
